System Requirements

PC-based attendees

Required: Windows® 7, Vista, XP or 2003 Server

Macintosh®-based attendees

Required: Mac OS® X 10.5 or newer

Onondaga County was ordered to remove 250 million gallons of water a year from the combined sewer system by 2018. Learn: the County's aggressive public education campaign in lessening the overflows to Onondaga Creek and Onondaga Lake; the Save the Rain Team's green infrastructure projects throughout the three sewer systems that discharge storm water into Onondaga Lake; restoration of the natural wetlands; and the County's Green Improvement Fund that provides financial assistance for the installation of Green Infrastructure projects on eligible privately owned properties. The Fund is to support the development of green infrastructure and storm water mitigation techniques of up to 100% of eligible costs with up to \$200,000.00 per applicant for a single project.

**Clean Water Council 2012: Implementing a Successful Green
and Sustainable Infrastructure**

June 15, 2012
